

Astria Health is looking for excellent Registered Nurses to join our team

Come be a part of Central Washington's largest health system, dedicated to providing care to the communities throughout the Yakima Valley.

Our Valley, Our Community,

The Yakima Valley has a lot to offer. Culturally diverse, you will find welcoming people who share a love for culture and the outdoors. The Yakima Valley has become one of the premier wine-producing regions in the world and now is home to over 100 wineries. We are just a short two hours away from the emerald city of Seattle, great for a weekend getaway for a Mariners, Seahawks or Sounders game or to enjoy shopping and fine dining. You can be on the family friendly ski slopes of White Pass one hour after you leave your driveway. Anglers experience world-class trout fishing in the Yakima River, and in the Columbia River, fish year-round for salmon, steelhead, sturgeon, walleye and bass. You will enjoy 300 days of sunshine, affordable housing, farmers markets featuring locally grown fruits and vegetables and endless family activities.

We are looking for committed and compassionate Registered Nurses to provide care for our patients at:

- Astria Sunnyside Hospital
- Astria Toppenish Hospital and Inpatient Behavioral Health
